---

## SUMMARY OF QUALIFICATIONS

---

- I have spent 4 years building and learning the craft of software engineering. I have worked on enterprise softwares On-Premises softwares as well as Cloud products.

## TECHNICAL SKILLS

---

**Core Languages:** Java, Javascript, emberJs and tons of internal Zoho Frameworks!

**Tools:** Redis,ElasticSearch,Mysql,MSsql,Postgres and little Kafka

## RELEVANT EXPERIENCE

---

### Zoho Corporation Private Limited

Jul 2020 – May 2024

*Member Technical Staff* – Chennai, Tamil Nadu

- Full Stack Developer worked on building an Enterprise cybersecurity software (SIEM product called Log360!) . It involved ElasticSearch,Redis,Relational Databases (Postgres, Mysql and Mssql) and Tons of Zoho's tools (including their own cloud service)
- Recently moved to a different team. We are now working on a new product called Arattai competing with Whatsapp and other apps on Chat Space. Similar tech stack but I spent a lot on Backend Engineering. A little of kafka, Largely Java based application with some Zoho's wrapper on RestAPIs.

### Zoho Corporation Private Limited

Jan 2020 – Jul 2020

*Project Trainee* – Chennai, Tamil Nadu

- This is when I learned about crafting softwares. I learned tools and techniques of building good software.

### Marutee Design

Summer 2019

*Engineer Intern* – Bangalore, Karnataka

- We tried building a smart cycle. I left to move back to college

### Toshniwal Instruments

Winter 2018

*Engineer Intern* – Chennai, Tamil Nadu

- Helped the company buy a sensor with particular specifications. We prepared a report on what sensor could be chosen.

## PROJECTS

---

### Tiny Programming Language

- After working for sometime, I had an inch to learn how programming languages work. I found a good book which taught how to build a small trans-compiler to know how parsing would work,etc. I tried building a programming language similar to LISP , but with very restricted functionalities

### Host a Blog

- I found that blogs are a great way to share world-views between people. I wanted one. Scouted for sometime and found out that static pages could be hosted without any charges and there are frameworks to build websites as static pages. I used Hugo to build my website.
- You can take a look at it at <https://kousik-mahadeva.github.io/kousikblogs/>

## EDUCATION

---

**SASTRA University** – Thanjavur, Tamilnadu

Jul 2016 - May 2020

*Bachelor of Technology in Electronics and Instrumentation Engineering*

Concentration: Electronics and Instrumentation Engineering

Cumulative GPA: 8.08/10.00
