**Tools:** Redis, ElasticSearch, Mysql, Mssql and Postgres

## RELEVANT EXPERIENCE

---

### Zoho Corporation Private Limited

Jul 2020 – May 2024

*Member Technical Staff* – Chennai, Tamil Nadu

- Built features for the Enterprise cybersecurity software called Log360. It was a Full stack Developer role with experience in Redis, ElasticSearch, Postgres, Mysql and Mssql.
- Build features related to ActiveDirectory Monitoring, security hardening and product upgrades. Involved in major Refactoring drives. Addressed bugs in-between.

### Zoho Corporation Private Limited

Jan 2020 – Jul 2020

*Project Trainee* – Chennai, Tamil Nadu

- Built a web application using Apache Tomcat. It was built using java and vanilla javascript. I also learned about a lot of Zoho's Internal tools and tried adding them into the project.

### Marutee Design

Summer 2019

*Engineer Intern* – Bangalore, Karnataka

- Built a mini GUI to monitor the health of different components of the electric auto.

### Toshniwal Instruments

Winter 2018

*Engineer Intern* – Chennai, Tamil Nadu

- We had specific requirements for a sensor. I worked on scouting for different vendors matching specification and quality, emailing them for the quotation and submitting a report of suggestion.

## PROJECTS

---

### Tiny Programming Language

- I had an inch to learn how programming languages work. I tried building a programming language similar to LISP, but with very restricted functionalities. It could do basic Arithmetic operations. Object oriented is yet to be supported

### Host a Blog

- I found that blogs are a great way to share world-views between people. I wanted one. Scouted for sometime and found out that static pages could be hosted without any charges and there are frameworks to build websites as static pages. I used Hugo to build my website.
- You can take a look at it at <https://kousik-mahadeva.github.io/kousikblogs/>
